

PROJECT 4 WEEK 2

Topic: What are some tourist attractions in Ecuador?

Name: Class:

1. Vocabulary. Match the words with the corresponding meaning

				
Active volcano	weaving	evolve		
straw	stalks	hat		
Dormant volcano				

2. Read and classify the information in the corresponding section.

<p>Ecuador</p> <p>Visitor: Hi there! How are you guys? How is everything going over there?</p> <p>Family: Hey darling! So happy to hear from you! Tell us about your trip. Are you having fun?</p> <p>Visitor: Oh yeah! It has been great. I have recently learned some things which I had not known before coming. Do you remember that beautiful hat my friend wore at the game last summer? Well, he said it was called Panama Hat so I thought it was made there but surprisingly I learned that these beautiful straw hats which are known and valued worldwide are made in the Ecuadorian coast! They are so beautiful! I bought some for all of you.</p> <p>PANAMA HAT</p>	<p>Besides that, last week I visited a dormant volcano called Chimborazo, I was astonished when the guide told as that even though Everest is the highest mountain from sea level. Due to its location near the Equator and the shape of the Earth, Chimborazo is THE CLOSEST POINT TO THE SUN! and its top is the farthest point from the center of the planet. It is really a beautiful mountain.</p> <p>CHIMBORAZO VOLCANO</p>	<p>Family: Really?? That is impressing we did not know it! What about Galapagos Islands we have heard that place is a paradise. When are you going there?</p> <p>Visitor: I'm going there in about two weeks but previously, I am trying to learn more about it. Here comes a really interesting fact! Did you know that Charles Darwin raised his Evolution Theory there? Animals of Galapagos are unique and have adapted to the islands special conditions so he noticed living things adapt and evolve!</p> <p>GALAPAGOS ISLAND</p>
---	--	--

It is the closest point to the sun

This place is a paradise

Dormant volcano

Living things adapt and evolve

Animals are unique

This is value worldwide

Beautiful straw hats

made in the Ecuadorian coast

It is really beautiful
