29 C Jemberan 15/11/2023

The image shows a multi-window desktop environment. On the left, a Microsoft Word document is open, displaying a worksheet titled 'Pecahan' (Fractions) with a clock icon and mathematical problems. The main window is the Canva design tool, where a search for 'bintang' (stars) is being performed. A central panel shows various star and celestial graphics. On the right, a 'Posisi' (Position) panel shows a worksheet with a question: 'BERAPAKAH BILANGAN PECAHAN SESUAI GAMBAR?' (What is the fraction number according to the picture?). Below the question are three circular diagrams, each divided into 5 equal parts with different colors. A video player at the bottom shows a video titled '5.0dtk' with a play button. The Windows taskbar at the bottom shows the date as 15/11/2023 and the temperature as 29 C in Jemberan.
