

Tahun 0 Tahun 1 Tahun 2 Tahun 3 Tahun 4

The diagram illustrates the steps of long division using three identical templates. Each template consists of three boxes: a top box for the dividend, a middle box for the divisor, and a bottom box for the quotient. A plus sign and a horizontal line are positioned between the middle and bottom boxes, indicating the subtraction step. Arrows show the flow from left to right between the stages.

$$\boxed{} + \frac{\boxed{}}{\boxed{}} =$$
