Read the Diary Of Beth !

For Essay Test , you are expected to write your answer with normal letters.
(Untuk jawaban isian, tulis dengan huruf kecil)

Dear Diary

Big argument with my parents tonight. I told them I want to go on a March next weekend to support environmental protection – and what did they say ? Did they say : “ Good for you , Beth ” ? Did they say : “ Brilliant – we’re really proud of you ” ? No chance. Mum said : “ A March ? But Marches are really dangerous , aren’t they ? And Dad said : “ You’re a bit young , aren’t you ? ” . I gave him my look. “ Dad, I said “ I’m 15 now. I’m not a child. I can look after my self.” Dad said : I know you’re 15. That’s make you a teenager , doesn’t it ? Not an adult ! ” And he and mum started laughing. Why ? Don’t ask me . So I stood up and said : “ Look, you’ve heard about global warming, haven’t you ? Well , it’s happening now. Now ! Responsible adult try to do something about problems, right ? And this the problem ! I’m a young adult now and I’m trying to do something. Ok? So I’ll be on March on Saturday. Then I stood up and walked out of the room.

Now I’m sitting here in my bedroom. I can hear the voices downstairs. Perhaps it’s the TV, but actually I think it’s my parents arguing. That’s strange – they don’t usually argue. Well, not with each other – only with me of course !

Television was once the newest technology in our homes, and then came videos and computers. Today's children are growing up in a rapidly changing digital age that is far different from their parents. A variety of technologies are all around us in our homes, offices, and schools. When used wisely, technology and media can support learning children's relationships both with adults and their peers.

Based on some evidence by research, there has never been a more important time to apply principles of development and learning when considering the use of cutting-edge technologies and new media as the so-called interactive media. Interactive media refers to digital and analog materials, including software programs, applications (apps), some children's television programming, e-books, the Internet, and other forms of content designed to facilitate active and creative use by young children and to encourage social engagement with other children and adults.

When the integration of technology and interactive media in early childhood programs is built upon solid developmental foundations, and early childhood professionals are aware of both the challenges and the opportunities, educators are positioned to improve program quality by intentionally leveraging the potential of technology and media for the benefit of every child.

This statement provides guidance for early childhood educators about the use of technology and interactive media in ways that can optimize opportunities for young children's development. In this statement, the definition of technology tools encompasses a broad range of digital devices such as computers, tablets, multi-touch screens, interactive whiteboards, mobile devices, cameras, audio recorders, electronic toys, games, e-book readers, and older analog devices still being used such as tape recorders, record and cassette players, projectors, and microscopes.

My Holiday

I usually spend my holidays away from home. Occasionally, I go to camp with some friends or sometimes I go on holiday with my parents. I really enjoy camps because I can relax and do exciting activities with my friends. I love climbing a mountain, chatting around camp fire and having a barbecue party.

When we do not camp, we play football. My friends and I always find out new places to play football. I enjoy meeting new people and making new friends. It is good to have more friends. Sometimes, they invite me to join their camping activities. I love camping and it is so amazing.

Besides with friends, I spend my holidays with my family too. There is a wonderful lake outside the town. We spend some nights in a home stay near there. The lake is surrounded by mountains. Water is fresh; the view is very natural. My family and I swim in the lake. Then we often have BBQ with local people there.

When we do not have any plan to spend our holidays, I usually read books. I love reading very much. I also love listening to music, watching movies and gardening. My sisters and I plant some flowers in our garden. Those activities make me alive and happy during my holidays.
