

Of all the locations we've seen so far, I strongly advise that you select this sandwich shop and convert it to your new Italian restaurant. The store has a friendly, comfortable, cozy and welcoming atmosphere. The interior decorations are so spotlessly clean and elegant that you might even want to keep everything as it is. The rent is quite reasonable, considering its priceless location right in the heart of downtown. Why don't we take a closer look at this immaculate store while we have lunch here? Let's first find a parking space.
