WORKSHEET: MATHS
Week 22 – Reading and making tables.

Teacher's comments:

Exercise 1: Tya collected some flowers from her garden. The flowers were of three different types – daisies, lilies and sunflowers.

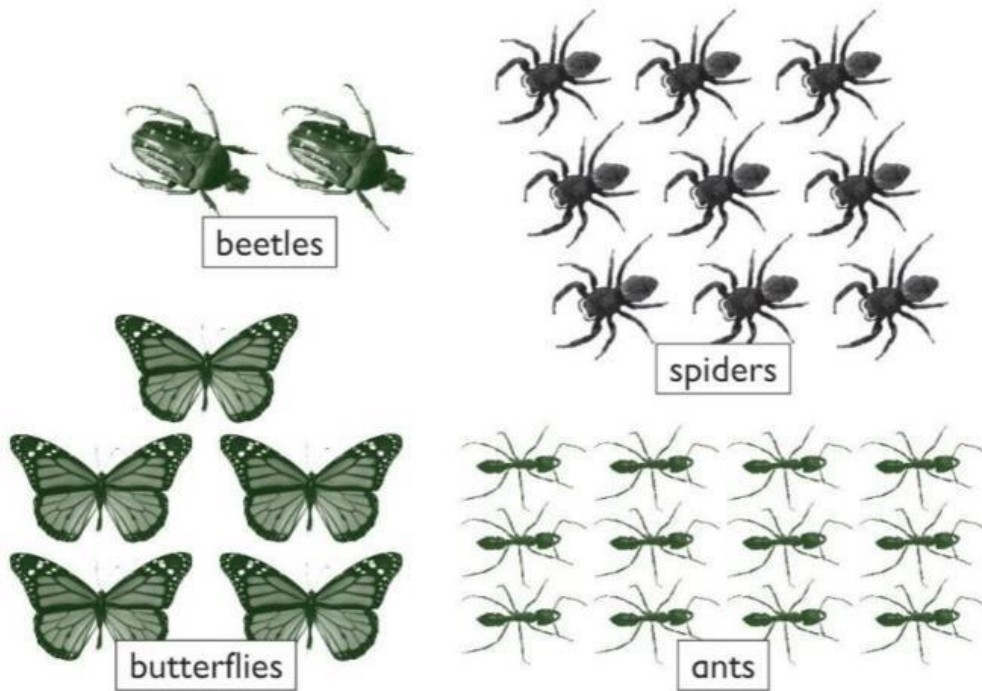

(a) Put the information about the flowers into the table below.

Type of flower	Daisies	Lilies	Sunflowers
Number of flowers	<input type="text"/>	<input type="text"/>	<input type="text"/>

(b) What type of flower did Tya collect most?

(c) How many lilies did Tya collect?

Exercise 2: Padma went into the forest and counted all the bugs she could find. She found beetles, butterflies, ants and spiders.

(a) Help Padma put her findings into a table.

Type of bug	Number of bugs
Ants	<input type="text"/>
<input type="text"/>	5
Spiders	<input type="text"/>
<input type="text"/>	<input type="text"/>

(b) What type of bug did Padma spot the most?

(c) What type of bug did Padma spot the least?

(d) How many spiders did Padma spot?
