

Atividade de matemática

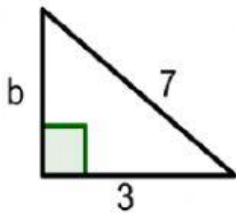

Aluno (a) : _____

Turma: 9º Ano

Professor: José Oreste

Data : 22/02 à 26/02 /21.

1- Faça os cálculos usando o teorema de pitágoras, preenchendo de forma correta os espaços a seguir :

$$a^2 = b^2 + c^2$$

$$2 = 2 + 2$$

$$= 2 +$$

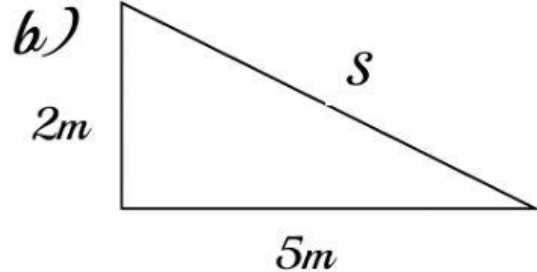

$$- 2 = - +$$

$$2 = -$$

$$2 =$$

$$= \sqrt{\quad}$$

$$=$$

$$a^2 = b^2 + c^2$$

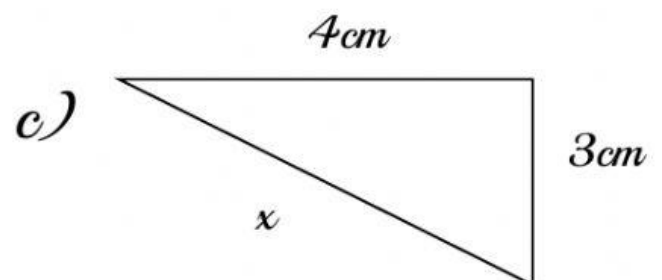

$$2 = 2 + 2$$

$$2 = +$$

$$2 =$$

$$= \sqrt{\quad}$$

$$a = m$$

$$a^2 = b^2 + c^2$$

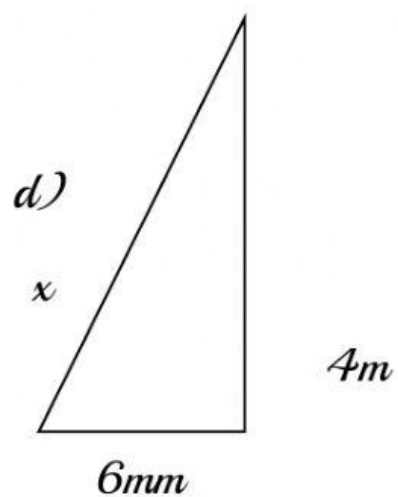

$$2 = 2 + 2$$

$$2 = +$$

$$2 =$$

$$= \sqrt{\quad}$$

$$a = cm$$

$$a^2 = b^2 + c^2$$

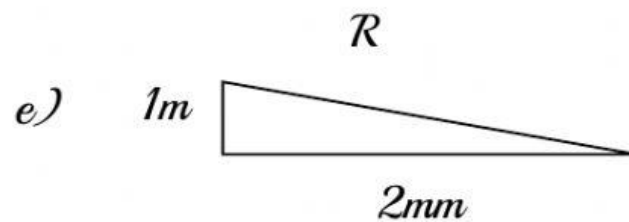

$$2 = 2 + 2$$

$$2 = +$$

$$2 =$$

$$= \sqrt{\quad}$$

$$a = \quad \text{cm}$$

$$a^2 = b^2 + c^2$$

$$2 = 2 + 2$$

$$2 = +$$

$$2 =$$

$$= \sqrt{\quad}$$

$$a = \quad \text{cm}$$
