

Reflection Mathematics Learning  
in Semester 1

**6 Thinking Hats Method**

Name : .....

Class : .....

LIVEWORKSHEETS

# Instructions

Please write as much as possible about the experiments you studied during your first semester of mathematics!

Write down the obstacles or challenges you faced while learning mathematics in first semester!

Write down your experience in your first semester math class!

Write down the methods or efforts you took to overcome obstacles or deal with these challenges!

Write down the positive things you learned after taking math lessons in first semester!

Write down the steps you will take to be better in this second semester!

## 6 THINKING HATS

Lets think about our mathematical learning in the last session. Please be guided by the colour of the cap and fill it honestly.
