

Solve the following

1. $72 \times 8 \div 9 =$

9

0

2. $120 \times 5 \div 10 =$

$$\frac{\boxed{} \times \boxed{}}{\boxed{}} = \boxed{}$$

3. $800 \div 100 \times 3 = \boxed{}$

$$\begin{array}{r} \boxed{} \times \boxed{} \\ \hline \boxed{} \end{array} = \boxed{}$$

4. $87 \times 34 \div 3 =$

Figure 1 illustrates the schematic representation of the multiplication and division tasks. The multiplication task (left) shows a vertical layout with a multiplier 'x' and a dividend, followed by a horizontal line and a product. The division task (right) shows a vertical layout with a divisor '4', a dividend, and a quotient.
