

Logic Game - In the museum

Cindy, Emily, Gerald, Leslie and Robert were in San Francisco this summer with their families. They visited the famous museums there. From this game you can find out which museum they visited, which exhibition they saw there and when could they freely go there (because there is a day every month when the admission is free). Look at the clues, fill in the tables, and then write full sentences using the solution. To solve this logic game put an 'X' where there is a relation and '-' where there isn't.
