Amazing sights!

Red Crabs, Christmas Island, Australia

Australia's Christmas Island is in the Indian Ocean, about 2,600 km from Western Australia. About 120 million bright red crabs live in shady places all over **1)** ..... island. During the wet season, the crabs race to the beach to breed. **2)** ..... cross busy roads and climb over walls and down cliffs. It's a long and difficult journey **3)** ..... the crabs, but the islanders **4)** ..... built 'crab crossings' and tunnels under busy roads to help protect them. The crab migration is a wonderful sight!

Lake Nakuru's Pink Flamingos, Kenya

Thousands or sometimes millions **5)** ..... pink flamingos make their nests by Lake Nakuru. Sometimes you can't even see the lake! They come to feed on the algae in the warm water. The flamingo population decreased **6)** ..... the 1990s because of hunting and pollution, but now **7)** ..... has increased again. Lots of people come and see **8)** ..... amazing sea of pink every year. It's really awesome.

We have put together two package tours to see these amazing sights. For more information CLICK HERE
