

ADDITION AND SUBTRACTION STRATEGIES

Use the addition or subtraction strategy of decomposing numbers to solve the equations.

1. Add the number and write the answer.

$$134 + 212$$

Expand the numbers

	Hundreds	Tens	Ones

Add the ones

	+		=	
----------------------	---	----------------------	---	----------------------

Add the tens

	+		=	
----------------------	---	----------------------	---	----------------------

Add the hundreds

	+		=	
----------------------	---	----------------------	---	----------------------

Add your answers

	+		+		=	
----------------------	---	----------------------	---	----------------------	---	----------------------

Total =

ADDITION AND SUBTRACTION STRATEGIES

2. Add the number and write the answer.

$$345 + 267$$

	Hundreds		Tens		Ones
Expand the numbers		+		+	
		+		+	

Add the ones + =

Add the tens + =

Add the hundreds + =

Add your answers + + =

Total =

ADDITION AND SUBTRACTION STRATEGIES

3. Add the number and write the answer.

$$543 - 231$$

Expand the numbers

	Hundreds	Tens	Ones		
		+		+	
		+		+	

Subtract the ones

	-		=	
----------------------	---	----------------------	---	----------------------

Subtract the tens

	-		=	
----------------------	---	----------------------	---	----------------------

Subtract the hundreds

	-		=	
----------------------	---	----------------------	---	----------------------

Add your answers

	+		+		=	
----------------------	---	----------------------	---	----------------------	---	----------------------

Total =

ADDITION AND SUBTRACTION STRATEGIES

4. Add the number and write the answer.

$$768 - 345$$

Expand the numbers

	Hundreds	Tens	Ones

Subtract the ones

	-		=	
----------------------	---	----------------------	---	----------------------

Subtract the tens

	-		=	
----------------------	---	----------------------	---	----------------------

Subtract the hundreds

	-		=	
----------------------	---	----------------------	---	----------------------

Add your answers

	+		+		=	
----------------------	---	----------------------	---	----------------------	---	----------------------

Total =
