D) Read the following passage and answer the questions:

Sarah always dreamed of becoming a surgeon. Despite facing numerous challenges, she worked hard in medical school and earned her diploma. After graduation, she applied for a position at the local clinic. Unfortunately, her application faced rejection, but Sarah remained determined. She sought guidance from a qualified mentor and continued to improve her skills. Eventually, she became an independent and successful surgeon, pioneering new techniques in the field.

Questions:

What was Sarah's dream?

What did Sarah earn after completing medical school?

Where did Sarah apply for a position?

Did Sarah face any challenges in her journey to becoming a surgeon?

How did Sarah eventually achieve success in her career?
