¹Make a study plan. Organize what you will do and make a schedule. Set a timer and take a break when the timer goes off.

²Try to study in a place that is calm, comfortable and quiet. Turn off your phone and don't read or answer texts while you are studying.

³If you are tired or in pain from sitting, reading or writing, take a break. Stretch, breathe, meditate, walk, run or talk to someone.

⁴Put some instrumental music on, change the lighting, open a window or bring your books outside. Moving and changing positions will really help your productivity.
