

The house mysteriously caught fire last night. There was no one in the house at that time. The family had locked it and they had left for a holiday in Bokhara. A woman next door heard the fire cracking in the middle of the night. She looked out of the window and saw that her neighbor's house was burning. It had been burning for some time when she

saw it. The flames were touching the roof. She phoned the fire station. Soon, a fire truck arrived and put out the fire. Half of the house had burnt down, but they saved the remaining half.
