

Snakes

Snakes **are** reptiles.

They lay eggs and have cold blood.

Snakes can **be** many different colours.

Some snakes are bright and colourful while other snakes **are** dull.

They have dry smooth scales on their body.

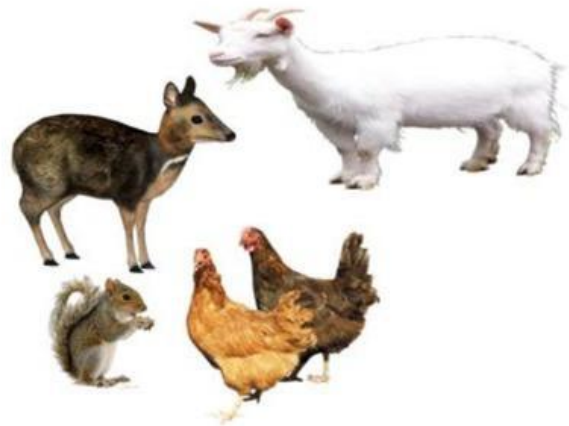

They have long bodies with **no** legs.

Snakes have **a** long forked tongue.

Snakes only eat meat.

They eat mice and other small animals.

Snakes live in many different places.

They can **be** found in water, forests and deserts.

Did you know that snakes move by wiggling along the ground?

They use their bodies **to** climb
and swim.

As **they** grow, snakes shed their skins.

Some snakes kill their prey
using venom while other snakes
squeeze their prey tightly.

Snakes have **no** teeth **so** they
swallow their food whole!
