Part 4
READING COMPREHENSION

1. Read the passage and choose the best answer to each of the following questions. (5 points)

Shigeru Ban is a Japanese architect who is known for his dedication to using paper to create and build emergency shelters for people living in disaster-stricken areas. The main material that Shigeru Ban uses to build shelters are cardboard tubes. It came as a surprise to him when he discovered that the material turned out to be quite durable, water-and fire-proof. It is also cheap and easy to transport. Given the limited availability of materials during times of disaster relief, cardboard tubes are an ideal option. Ban first designed a relief shelter made from cardboard tubes for Rwanda's Refugee Camp in 1995. Since then, he has built this type of emergency shelters throughout the world. His designs not only serve their intended purposes but they are also very pleasing to the eye.

1. Who will find a robotic guide dog helpful?

- Japanese architecture
- Emergency shelters
- A durable material
- An innovation in designs

3. Who will find a robotic guide dog helpful?

- They can last for a long time.
- They are not easily damaged by fire or water.
