

AMAZING ANIMALS

Has flippers and a tail with two parts called flukes that help to swim very fast.

Has thick fur. It helps this animal to stay warm. Its fur is the same color as the snow.

Has spots and a long neck that helps reach the leaves of the trees.

Has a long nose called trunk. Sometimes they spray water on their friends.

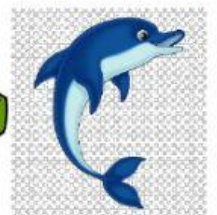

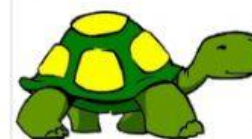

Has quills that helps to keep it safe. The sharp quills hurt!

It is a bird with two feet and a beak. Uses the beak to eat bugs and plants.

Has a very hard shell where to hide in case of danger.

Has one or two humps and long, thick eyelashes that keep out the desert sand.
