CIPP MATH

MAKE AND READ A GRAPH

February 25th, 2021

SD Tumbuh – Jogja Educational Spirit
Kelas : Lower B
Inquiry : Who We Are
Mata Pelajaran : CIPP Math

Teacher's feedback:

Nama : _____
Tanggal : _____

Hello my Lower B friends! How are you, guys? Hope everything's fine.

Today we will learn something new. We will talk about **GRAPH**!

What is graph? Graph is a way to organize and show data that make easier for us to count.

For example, you can look at the picture!

Lower B have 15 students. Each student has their own favourite food. How we organize the data?

SD Tumbuh – Jogja Educational Spirit
Kelas : Lower B

Mata Pelajaran : CIPP Math

Teacher's feedback:

Nama : _____
Tanggal : _____

For handling the data, we can make the graph like this:

So, from this graph we know that:

There are 6 students choose

There are 4 students choose

There are 3 students choose

There are 3 students choose

To know more about how to read and make the graph, please watch this video below:

Now, lets make the experiment using the coin!

HEAD OR TAIL ?

Flip the coin 10 times and graph it if it lands on heads or tails?

head

tail

Answer the question:

1. Did you flip heads or tails more?

2. How many times did get the head?

Times.

3. How many times did get the tail?

Times.
