

Name: _____

Group: 5- Term: I

DATE: _____ / 2021

Teacher: MAYERLY ANDREA ANGULO RIVERA

Pop Quiz Homework

Exercise 1: (20 points)

Estimate the distance, in metres, from the start of the line to:

- each arrow

- each ball.

Exercise 2: (15 points)

Write the number in standard form:

- forty thousand, eight hundred sixty-five _____
- three hundred sixty-two thousand, one hundred seven _____
- six hundred seventy-nine thousand _____
- nine thousand _____
- five hundred thousand, two _____

Exercise 3: (15 points)

Write the place of the underlined digit. Then write its value.

- 252 _____ • 812 _____
- 6,939 _____ • 9,326 _____
- 36,945 _____ • 81,469 _____
- 319,675 _____ • 654,389 _____

Exercise 4: (20 points)

Complete these calculations:

(a) $4.68 \times 100 = \boxed{}$

(b) $5700 \div 1000 = \boxed{}$

Exercise 5: (30 points) The Earth is 4 ½ billion years old. Scientist divide the Earth's history into time periods according to the fossils they find in rock. Use the table of periods in Earth's history to solve the problems.

Time Period	When It Began
Late Triassic Period	225,000,000 years ago
Jurassic Period	213,000,000 years ago
Cretaceous Period	144,000,000 years ago
Tertiary Period	65,000,000 years ago

1. Write the word name for the number that tells when the Tertiary period began.

2. Which period began one hundred forty-four million years ago?

3. Which two periods began more than two-hundred million years ago?
