Photosynthesis

Photosynthesis, _____

_____ (photosynthesis)

Plants don't have a _____

Like you and me (no, no no)

But they have _____ (yum!)

So they spread their leaves so _____

To capture _____

Plants don't have a _____

Like you and me (no, no no)

But they have to _____

Did you know their leaves so _____

Can take in air and make it clean? (That's amazing, that's cool!)

That's photosynthesis, _____

_____, (photosynthesis)

Plants can't hold a cup

Like you and me (no, no, no)

But they have _____

So they push their _____ deep down

To soak up _____ from the ground

Plants don't wear _____ hats

Or shirts, or jeans

So why are they green? (why, why, why, why)

It's because all plants are _____ (With what?

With _____ we call chlorophyll _____

Chlorophyll is the green _____ color, found in plants.

It helps them _____. And without it, there'd be no...

Photosynthesis, photosynthesis _____

(photosynthesis)

Plants can make their very own

With _____ (so good)

That's because all plants are filled

With green stuff we call chlorophyll

That's Photosynthesis, photosynthesis

Photosynthesis, (photosynthesis)

That's Photosynthesis, photosynthesis

Photosynthesis, (photosynthesis) (yeah!)
