Reading

Read the texts and answer the questions below. Write D for Daniel, N for Nancy or P for Philip.

Daniel

I spend a lot of my spare time on social media sites. I've got an account on many different ones because they help me stay in touch with my friends as well as meet new people with similar interests to mine. Actually, I don't even use my phone to contact them that often anymore, because I am always online on a social media site. Additionally, these sites are great for organising events. My cousin managed to inform people about a charity event in our town using just social media. Over 300 people attended the event. It was amazing!

1. Who mentions that social media sites can have their good and bad points?
2. Who uses social media sites mostly to socialise with friends?
3. Who disagrees with how a family member uses social media sites?
4. Who refers to the dangers of using social media sites?
5. Who prefers using other ways of communication?

Nancy

I'm not a fan of social networking sites. In fact, I haven't got an account on any one of them! I don't want to put my personal information online for everyone to see and I don't understand why other people haven't got a problem with that. There are also a lot of viruses you can get from these sites that can damage your computer. Call me old-fashioned, but I actually enjoy talking on the phone with my friends and meeting them face-to-face. It seems to me that sending an online message just isn't the same!

Philip

Social media sites are pretty popular nowadays. So like everyone else, I use them to communicate with friends and play online games. However, the main reason I use them is to get information about news and events. They are pretty practical, but I think that some people overdo it and spend too much time on them. My sister, for example, constantly checks her online accounts and posts status updates about what she's doing. I've told her a million times: nobody cares that you just had a sandwich!

Writing

Below is part of an email you have received from a friend. Write a reply.

● ● ●

I'm so excited about finally coming to visit you! I'm going to arrive by train on Monday morning. I know you're working. I want to go shopping in the city centre for a while. So, just let me know where and when you want to meet up. Also, tell me how to get there, because you know me – I haven't got a GPS!
