**F** Read the product review. Then read the questions and choose the correct answers.

**Imperfect goods ★★★★☆**

I recently purchased a pair of fishing boots from your website. At first, I was hesitant as I've had bad experiences ordering fishing gear online in the past. I'm a serious fisherman, and my fishing equipment gets used pretty heavily. So I didn't want to buy anything cheap or second-rate and was willing to spend good money on a quality product. I read the online reviews of the boots. They were all very enthusiastic, and this is what convinced me to finally buy them. Unfortunately, those reviews have not turned out to be trustworthy.

Basically, everything in those reviews or in your advertisements has turned out to either be misleading or completely untrue. First, the photos on your website show that the boots go above the knee, which is important when you're wading in a foot or two of water. The boots I received barely go halfway up my calf. So while they are technically waterproof, that's only true as long as you are standing in no more than a few inches of water.

The lining of the boots was another disappointment. I read review after review talking about how warm and comfortable the lining was. That was certainly true at the start. The first couple of times I wore the boots they felt great. But the lining quickly started to come apart. I'm honestly shocked that you would use such inferior materials.

Really, about the only part of the online reviews that was accurate was all the praise for the delivery service. Delivery was fast and on time, but given all the problems with these boots, that doesn't really matter. I know that your website clearly states that you do not accept returns, but I hope that you will make an exception to that policy and provide me with a full refund. I think it would also be helpful if you corrected some of the misleading information on your website so that customers had a better idea of what they are actually buying.

Sincerely,  
Dave Curtis

- 1 Why was the customer hesitant to buy the boots?
  - A He thought they were too expensive.
  - B He's had poor experiences buying online before.
  - C He saw bad reviews of the boots online.
- 2 Why does the customer mention that he is a serious fisherman?
  - A To explain why he needed the boots.
  - B To explain why he believed the reviews.
  - C To show how important quality is to him.
- 3 Which of the following was the customer satisfied with?
  - A delivery
  - B the size of the boots
  - C the quality of the boots
- 4 What was the customer initially pleased about?
  - A the waterproof nature of the boots
  - B how they felt to wear
  - C the length of the boots
- 5 What does the customer suggest?
  - A That the company change their return policy.
  - B That the company correct the information on their website.
  - C That the company stop selling inferior products.
