

ตัวอย่างเช่น:

python

Copy code

```
def calculate_grade(score):  
    if score >= 90:  
        return "A"  
    elif score >= 80:  
        return "B"  
    elif score >= 70:  
        return "C"  
    elif score >= 60:  
        return "D"  
    else:  
        return "F"  
  
score = float(input("Enter the score: "))  
grade = calculate_grade(score)  
print("Grade:", grade)
```
