

Flash memory

Flash-based gadgets

Flash memory is used in many handheld devices. Match the descriptions (1–6) with the pictures (a–f).

- 1 This handheld console lets you play games stored on ROM game cards, which have a small amount of flash memory to save user data, for example high scores.
- 2 This flash memory card is used as 'digital film' to store images on a digital camera.
- 3 This wireless LAN card allows laptop and PDA users to access the Internet from any Wi-Fi access point.
- 4 This USB flash pen drive is the latest mobile drive for your computer.
- 5 It looks like an ordinary watch, but this USB drive from Edge Tech can store up to 1GB of flash memory. It will let you save and transfer your photos, songs and data files easily.
- 6 This flash-based player provides everything you need to play music and store data on the go. It also comes with a built-in FM radio and voice recorder.
