Fill in the blanks with the appropriate directional words or prepositions.

The first possible site for the shopping mall, S1, is just _____ of the city centre, _____ the railway line, which runs from the _____ of the city to the _____. If it is built here, it will be next to a large housing estate, thus providing easy access for those living on the estate and _____ the city centre. It will also be next to the river that runs _____ the town.

The site in the _____, S2, is again just _____ the railway line and fairly close to the city centre, but it is near to an industrial estate rather than housing.

There is a main road that runs _____ the city and is close to both sites, thus providing good road access to either location. A large golf course and park in the _____ of the town prevents this area from being available as a site.
