

Answer the following questions based on the diagram below.

(a) Pertukaran gas di pepelu  
*Gaseous exchange in the lungs*

(b) Pertukaran gas di sel-sel badan  
*Gaseous exchange in body cells*

1. Identify each of the following.

- Gas M: \_\_\_\_\_
- Gas N: \_\_\_\_\_
- Structure X: \_\_\_\_\_
- Structure Y: \_\_\_\_\_
- Cell Q: \_\_\_\_\_
- Blood vessel P: \_\_\_\_\_

2. Cell contains carrier molecules of gas M. Name the carrier molecule.

---

3. Name the process of gaseous exchange between blood vessel P and X.

---
