Old Folktale

This is an old _____ (adjective) folktale from _____ (place). It seems there once was a queen named _____ (name of girl in the class). One day she declared, "Whoever can catch the most _____ (plural noun) from the _____ (adjective) forest will win my hand in marriage, as long as he catches more than _____ (three-digit number)." Only two men accepted the challenge.

A woodcutter named _____ (name of boy in the class) tried first. He caught _____ (different three-digit number) by using a _____ (noun) with a long handle. A _____ (occupation) went next. Since he was _____ (adjective) and _____ (adjective), he caught _____ (different three-digit number) with a _____ (noun).

Question: **Who got to marry the queen?** _____
