A Read Noa's description of her pet, Polly, and answer the questions.

MODEL

I have a special pet. It is a gray and red parrot and we call her Polly. Polly is five years old. She lives happily in a big cage in our living room. She eats fruit, nuts and sunflower seeds. The best thing about Polly is that she talks. Sometimes she's very noisy. At night I cover the cage quietly with a big blanket so that it's dark inside. Then Polly says, "Good night, Noa!" My friends think that she's cool and so do I.*
