

Множення двоцифрового числа на одноцифрове

$12 \cdot 4 = \square\square$

$16 \cdot 2 = \square\square$

$15 \cdot 3 = \square\square$

$18 \cdot 3 = \square\square$

$24 \cdot 2 = \square\square$

$15 \cdot 5 = \square\square$

$17 \cdot 3 = \square\square$

$24 \cdot 3 = \square\square$

$18 \cdot 4 = \square\square$

$14 \cdot 3 = \square\square$

$12 \cdot 6 = \square\square$

$13 \cdot 5 = \square\square$

$19 \cdot 4 = \square\square$

$25 \cdot 2 = \square\square$

$15 \cdot 6 = \square\square$

$13 \cdot 7 = \square\square$

$23 \cdot 4 = \square\square$

$14 \cdot 5 = \square\square$

$19 \cdot 3 = \square\square$

$15 \cdot 2 = \square\square$

$27 \cdot 2 = \square\square$

$34 \cdot 2 = \square\square$

$48 \cdot 2 = \square\square$

$32 \cdot 3 = \square\square$

$32 \cdot 2 = \square\square$

$11 \cdot 4 = \square\square$

$29 \cdot 3 = \square\square$

$12 \cdot 5 = \square\square$

$27 \cdot 3 = \square\square$

$24 \cdot 4 = \square\square$

$33 \cdot 3 = \square\square$

$16 \cdot 3 = \square\square$

$18 \cdot 5 = \square\square$

$16 \cdot 6 = \square\square$
