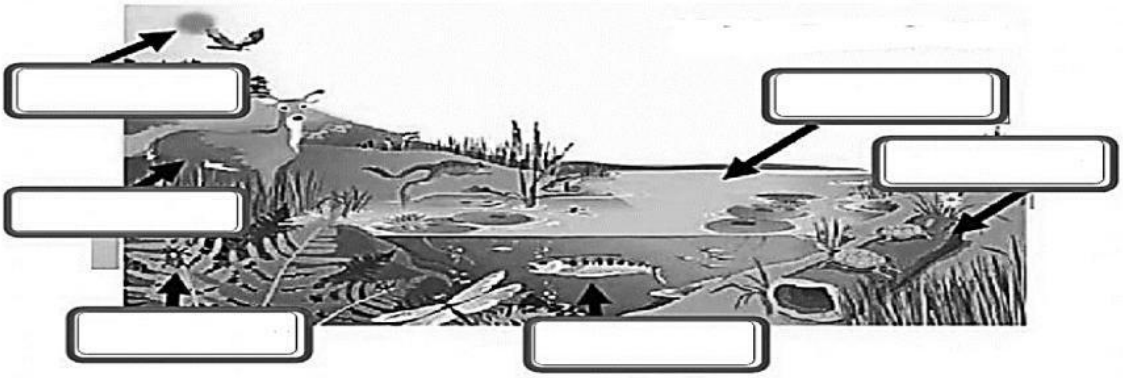
REVIEW ECOSYSTEMS - THIRD GRADE

1. Look at the following image and write the type of factor (biotic or abiotic) in the rectangle.



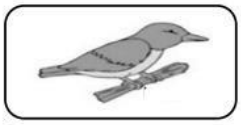
2. Classify the following factors as biotic or abiotic

Temperature	_____	Bacteria	_____
Fungi	_____	Light intensity	_____
Cow	_____	Water	_____
Soil pH	_____	Plants	_____
Humidity	_____	Humans	_____
Zebras	_____	Soil	_____
Jellyfish	_____	Climate	_____

3. Organize the levels of organization

LEVEL	INDIVIDUAL	POPULATION	COMMUNITY	ECOSYSTEM
Description	1	2	3	It is the reactions between living and nonliving components in a given area
Drawing	4	5	6	

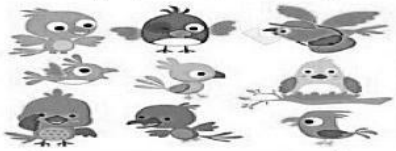
An organism is a single, living thing and can be an animal, a plant, or a fungus.



all populations in the same place at the same time (all living things).

all of the organisms of the same species in the same place at the same time

4. Write below each image individual, population, community or ecosystem as appropriate

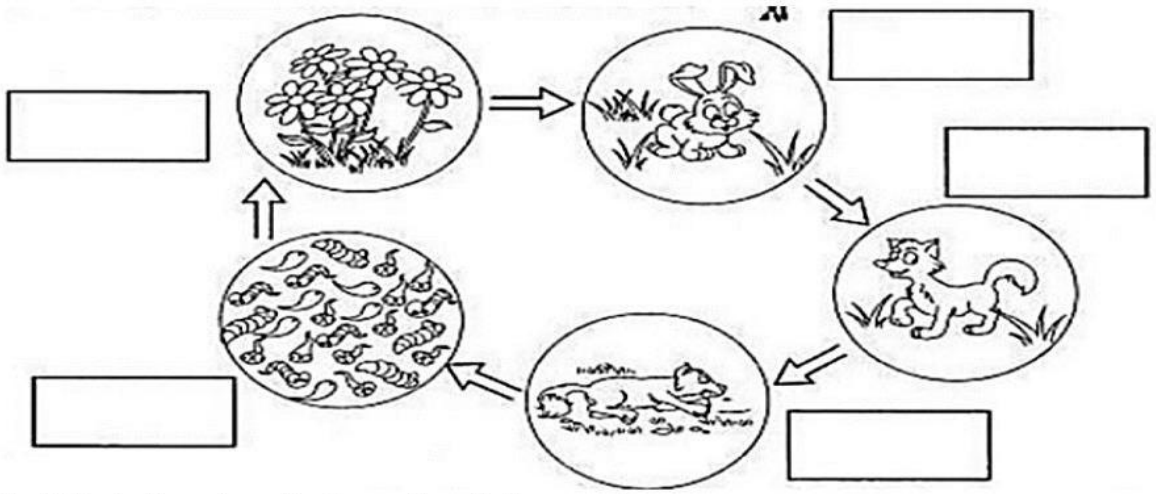


LIVEWORKSHEETS

5. Write producer, consumer or decomposer for each living thing

Rabbit _____	Human _____
Earthworm _____	Sunflower _____
Crocodile _____	Chicken _____
Squirrel _____	Wolf _____
Mushroom _____	_____
 _____	_____

6. Write the appropriate name for each level of the food chain.

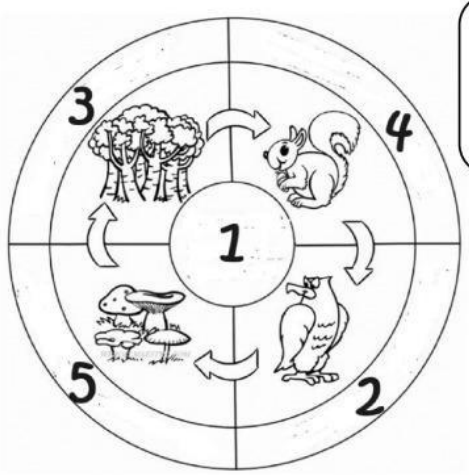


7. Relate the image by writing the number with the concepts

ECOSYSTEM
feeding relationships
_____

PRIMARY CONSUMERS
It feeds on the producers
_____

SECONDARY CONSUMERS
It feeds on other animals.
_____



DECOMPOSERS
They transform remains of living beings into nutrients for plants.
_____

PRODUCERS
They make their own food
_____

LIVEWORKSHEETS
