A Trip to The Zoo

Last weekend, my family and I decided to visit the local zoo. We woke up early in the morning, packed some sandwiches, and drove to the zoo. As we entered the zoo, the excitement was palpable. The first animals we saw were the majestic lions. They were lazing around, and their roars echoed through the air. Next, we moved to the primate section and watched playful monkeys swing from tree to tree.

One of the highlights of our trip was the penguin exhibit. We watched the adorable penguins waddle around and dive into the water. My younger sister couldn't stop giggling at their antics. We also saw zebras, giraffes, and even some rare white tigers. It was an incredible day spent observing and learning about these fascinating animals.

16. What did the author's family do to prepare for their trip to the zoo?
 - a. They packed their bags for an overnight stay.
 - b. They made sandwiches for the journey.
 - c. They booked tickets for a movie.
 - d. They prepared a barbecue.
17. Which animals did the author find particularly exciting at the zoo?
 - a. Monkeys
 - b. Lions
 - c. Penguins
 - d. Zebras

Dolphin

For many years people believed that the cleverest animals after man were the chimpanzees. Now, however, there is a proof that dolphins may be even cleverer than these big apes.

Although a dolphin lives in the sea, it is not a fish. It is a mammal. It is in many ways, therefore like a human being.

Dolphins have a simple language. They are able to talk to one another. It may be possible for man to learn how to talk to dolphins. But, this will not be easy because dolphins cannot hear the kind of sounds man can make. If man wants to talk to dolphins, therefore, he will have to make a third language which both he and the dolphins can understand.

Dolphins are also very friendly toward man. They often follow ships. There are many stories about dolphins guiding ships through difficult and dangerous waters.

18. Look at the following statements.

- (1) Chimpanzees are cleverer than dolphins.
- (2) Dolphins don't have mammary glands.
- (3) Dolphins breathe air.
- (4) Dolphins communicate using simple language.
- (5) Dolphins are friendly animals.
