

## Reading comprehension

We can all agree that songs depicting deep emotional complexities are the most thoughtful and sometimes life-changing pieces of art, which puts them in a special place for those who have listened to them. One of those memorable songs, "Anti-Hero," composed by Taylor Swift, is known for its reflective lyrics and suiting rhythm that showcase the insecurity complex and mental ailments the singer suffers from, as well as the explicit references many fans have noticed in the song.

Undoubtedly, the most noticeable elements in the song are the powerful yet dreadful emotions Taylor constantly endures, such as fear, anxiety and self-loathing, feelings that are put throughout the video in a relatable way, allowing the viewers to delve deeper into Taylor's emotions and inner thoughts. Consequently, fans came to the conclusion that this emotional turmoil stems from the pressure her career exerts on her and how this can negatively impact her relationships as well as her personal life. In fact, the following lyrics, "One day I'll watch as you're leaving Cause you got tired of my scheming," expresses her fear of losing her 6-year relationship with the actor Joe Alwyn, with whom, at the time, they were still engaged.

Furthermore, the following lyrics: "It's me, hi, I'm the problem, it's me, at tea time, everybody agrees," show deep concerns about her self-worth, her thoughts about what people think about her, and how these constant self-deprecating thoughts are painful to endure for her. Such an ailment is accentuated by the following lyrics: "Sometimes I feel like everyone is a sexy baby, and I'm the monster on the hill," exhibiting low self-esteem as shown by how she feels about her beauty and, of course, how her status as a celebrity makes her feel out of place ("Too big to hang out").

In conclusion, the song "Anti-Hero" allows us to see Taylor Swift's mental health problems and what the root causes of such ailments are, spanning from career-related issues that compromise her personal life, to self-worth and self-image issues that make the viewers related to the singer through an enjoyable tune and insightful lyrics that make an impressive song to listen to.
