

# Activity 5

*Listen to the audio and answer the following questions.*

1. What are some specific examples of places bats might choose to rest during the day, besides caves?

2. Based on the information provided in the text, how many insects a single bat might consume in a night?

3. How do bats determine their distance from objects in the dark?

4. How might the unique wing structure of bats differ from that of birds, and what advantages does it offer in flight?

5. What will happen if bats are extinct?
