BAHASA INGGRIS

Nama/Absen :

Yesterday, my family and I decided to visit the local zoo for a fun day out. We arrived early in the morning, excited to see all the different animals. The first exhibit we visited was the lion enclosure.

We watched in amazement as the majestic lions roamed around their habitat. After that, we moved on to see the monkeys swinging from tree to tree. It was hilarious watching their playful antics. Next, we visited the reptile house, where we saw snakes, lizards, and even a massive crocodile. Lunchtime soon approached, so we sat down for a picnic near the elephant exhibit. We marveled at the gentle giants munching on their food. In the afternoon, we watched a fascinating bird show, where colorful parrots performed tricks. As the day came to an end, we reluctantly made our way home, tired but happy from our wonderful day at the zoo.
