

Name: _____

Class: _____

Transparent, Translucent and Opaque Materials

1. In your own words describe/define light.

Instruction: Read each statement carefully before matching it to a term.

Translucent	An object that allows all light to pass through it.
Opaque	An object that lets some light energy pass through it.
Transparent	An object that absorbs light energy and does not let it pass through.

Instruction: Analyze each material before placing it into its corresponding column; Transparent, Translucent or Opaque.

Translucent

Transparent

Opaque
