A laptop is a kind of computer unit which has the same function as a PC (Personal Computer), but it is smaller, lighter and of different sizes. Nowadays, most people choose laptops for several reasons.

A laptop is a portable device. This portability is very helpful for our work, study, and other activities. We do not need complicated cable installations to activate a laptop, and with a laptop, we can do our work anytime anywhere.

Moreover, a laptop allows us to access the internet in public places which provide free access called hot spot areas. Some people like to use this facility to carry out their tasks.

Finally, a laptop consumes energy more efficiently than a PC does. This device uses a rechargeable battery as a source of electric energy. So if we prefer using a laptop, it means that we support the government program to save energy. That's why a laptop has become very popular recently.

On Wednesday, my students and I went to Yogyakarta. We stayed at Dirgahayu Hotel which is not far from Malioboro.

On Thursday, we visited the temples in Prambanan. There are three big temples, the Brahmana, Syiwa and Wisnu temples. They are really amazing. We visited only Brahmana and Syiwa temples, because Wisnu temple is being renovated.

On Friday morning we went to Yogyakarta Kraton. We spent about two hours there. We were lucky because we were led by a smart and friendly guide. Then we continued our journey to Borobudur. We arrived there at four p.m. At 5 p.m. we heard the announcement that Borobudur gate would be closed.

In the evening we left for Jakarta by wisata bus.

Smoking is known to be damaging to one's health and can cause various cancers in the body. Smoking at any age has negative effects, including for teenagers and young adults.

Teens are often exposed to images of celebrities smoking, which can make it seem cool, even though there are many serious downsides to smoking. In some instances, the media tries to make smoking look acceptable, which helps tobacco companies make sales.

Teens may be faced with peers who smoke or family members who smoke in their home. Being bullied to start smoking is very possible, especially for those who are over 18, since it is then legal to smoke cigarettes in many regions. If teens live with smokers, they are likely exposed to second-hand smoke and all the health repercussions that come with it. These teens are also more likely to have access to packs of cigarettes that older siblings, parents or other family members have in the household.
