One of my favourite tv program is **Garfield**, it is an American cartoon television series based on the comic strip **Garfield** by Jim Davis. The show was produced by Film Roman. It is programmed everyday at half past seven on channel six. The series follows the life of a fat, lazy Orange cat who wants nothing more out of life than to eat and sleep. He loves to lie, eating lazagna and watching tv. My mother also loves this program and normally watches it with me, so we usually have something good to eat like popcorn, cheese, biscuits or pizza while we watch the show together.

**SpongeBob** is an American animated television series which shows the adventures of sponge Bob with his various friends. The character is an energetic and optimistic sea sponge. He looks like a kitchen sponge who lives in a pineapple under the sea with his pet snail, Gary, who meows like a cat. Gary doesn't speak but understands well sponge bob. His best friend, Patrick Star, is a stupid friendly pink sea star who lives under a rock. Despite his "Mental Setbacks" Patrick considers himself as intelligent the series is programmed everyday at one o'clock on spacetoon.

All my family loves this program and normally watches it with me, so we usually have something good to eat like chocolate, peanuts, tea and cakes.
