

A. EPOS and EFTPOS

Electronic payments

Cross out the incorrect word

EPOS (electronic point of sale) terminals are **cash / money** registers found in retail **openings / outlets** such as shops and restaurants. They are connected to a **central / centre** computer, and data about **objects / goods** and services sold is entered into the terminals via keyboards, barcode readers, **touch / finger** screens etc. They are useful for stock management, and can produce itemised bills and **receipts / recipes**.

EFTPOS (electronic funds transfer point of sale) can also transfer **cash / funds** directly from the customer's bank account via a **debit / paying** card. They are now more common than EPOS terminals.

B. Word partnerships

Match the words.

- | | | |
|------------|--|-----------------|
| 1. cash | | a. and services |
| 2. central | | b. card |
| 3. debit | | c. computer |
