Hi Dad,

I hope you are well. You know that the house is quite old? Well ,we've already started making changes so that it looks better. We're so excited! Last week I repaired the gate and Lucy cleaned the front door. It was green but I've painted it red now. The garage is OK. We're not going to do anything to that. But we are going to change the horrible brown color of the windows. Lucy is going to paint them blue tomorrow. We are busy! The next big job is the roof.

Can you help us to repair it?
