

**In class  
Activity**

1. He mentions 5 situations in which RiSE V3 would be useful:

Five horizontal light blue rectangular boxes stacked vertically, intended for writing the five situations mentioned in the prompt.

2. In the lesson we mentioned some of the features of RiSE V3 robot.

What other characteristics should they have for the remaining stocks?

Blank writing area consisting of 15 horizontal light blue lines for student response.

With your material K'Nex assemble a RiSE V3 robot and explain its characteristics.
