

# 1 Time for television

## LOOK again The time

What's the time?  
It's six o'clock.

1 Match the clocks with the pictures.

2. Read and match the sentences with the clocks.

- |                                                            |                                                                     |
|------------------------------------------------------------|---------------------------------------------------------------------|
| a He had lunch at half past twelve. <u>5</u>               | f Dan got dressed at ten to eight. ---                              |
| b Classes started again at quarter to two. ---             | g He went out to the playground for break at quarter to eleven. --- |
| c He caught a bus to school at twenty-five past eight. --- | h Classes began at nine o'clock. ---                                |
| d School finished at four o'clock. ---                     |                                                                     |
| e Dan caught the bus home at ten past four. ---            |                                                                     |

3. Watch a video.

What did he forget?
