

Complete the example answers with **ONE** word, please.

Would you tell me about your home?

Well, **I'd rather not tell** the exact l.....n of our home if it is possible since I wouldn't like to share too much p.....l information about myself. I think it is enough if I say that our home **is located** in one of the central d.....s of the capital city. So, it means that we don't live in the s.....s, or **on the outskirts** of the city and I don't have to c.....e to school from one of the s.....s of the agglomeration like Göd, for instance, either. I'm not so very fortunate, like some of my classmates who **live within walking d.....e from our school**, but **it takes me only a quarter of an h.....r** to get here by bus, by underground and by tram.

What is the address of your home? Do you live in a flat or in a house?

Well, I live at 10, Üllői Road. **I live in a 4-s.....y building on the second f.....r.** It is an old three-room c.....l flat. **We pay the rent to the self-government of d.....t 8.** Unfortunately, our flat doesn't have a b.....y. **If we had one, I would definitely put some plants and artificial lawn with some outdoor f.....e there**, like a small table with two chairs. I'm so very envious of those classmates of mine who live in a d.....d house in the **agglomeration**. Having a room of my own u.....s, **not downstairs**, of course, **with an en-suite bathroom** has been my dream since my childhood. **Living in a s.....i-d.....d house is not something I long for** because I don't want to have a shared wall with our neighbours. This is something I have to **put up with** in our flat. The worst thing I can imagine is living in a t.....d house. Here, **you share both sidewalls with the adjacent houses. As a matter of fact**, I wouldn't like to move to the country to a **typical c.....e-s.....d house with a garden** simply because I can't imagine living there. So, **for the time being**, we stay

in our d.....n flat, in the city centre, **with an external c.....r leading to each flat.**

What is the most important thing about your home?

There are seven rooms in our flat. Three b.....s, where I, my elder brother and my parents sleep and spend most of our time now because of the COVID-19 pandemic. There's also a kitchen with a separate d.....g room, where we can eat together, and a s.....g r....m, with a sofa, two armchairs and a c.....e t.....e. Unlike British homes, we don't have a f.....e there. So **heating is solved by using c.....r heaters.**

Unfortunately, I don't have an en-suite b.....m, where I can have a shower or take a bath. In our b.....m, there isn't a separate **shower cubicle**. There is only a **b.....th t....b** with a shower curtain. There is room for a washing machine there. We have a separate **t.....r, which dries our clothes because we don't have a balcony where we can hang our clothes to dry.**

What household appliances do you have in the kitchen?

We have a t.....r, a c.....e m.....e, a b.....r, a s.....h m.....r with which I can make delicious **waffle** as well. The electric k.....e is the most important **labour saving device** in our home, I guess, **since I frequently make tea for myself and for all my family members.** Our m.....e o.....n is also often used. **Warming up my food** when I get home from school is done by using it. I hardly ever use our **gas c.....r** since I can't really cook. It is my mother's **responsibility**. The o.....n is also something I won't ever use, I guess. **I'd rather eat my mother's roast turkey than prepare it myself.**

Talk about your own room, please.

I have only one **sibling**, a younger brother **with whom, fortunately I do not have to share the same room.** To be honest, **I wouldn't be able to put up with him** if he lived in my room. Well, there is no separate s.....y in our flat, so **my own room is the only place where I can prepare for my lessons and exams.** I have a

c.....r d.....k in the middle of the room with a comfortable s.....l
c.....r in front of it. My desk is opposite the window, so that I can
see everything while studying. I spend not more than five hours in
front of my d.....p computer. When I go to bed I use my
l.....p computer, of course. **Software development requires
hard work and a lot of hours spent in front of the s.....n.** There
are no b.....s in my room because they wouldn't be able to
hold the thousands of books I have in my room. There is only a large
b.....e where I keep my English m.....l and
b.....l dictionaries together with my English course
books. The other books I keep there are my IT textbooks, which are
necessary for me to study computer e.....g and web design at
school. W....r and P.....e and Anna Karenina by Lev Tolstoy,
C.....e and P.....t by Dostoyevsky as well and P.....e and
P.....e by Jane Austen are also there. **Strange though it may
appear** but there is no TV in my room. **It would only d... ..t
my attention from studying. All in all, I love my room so very
much because it is only mine.** I don't have to share it with anyone
else. **I can do whatever I want to and whenever I want to there.**

Which is your favourite room?

Of course, it is my own room because I have p.....y there. I
can invite my friends and we can talk to each other without
d.....g anyone from among my family members. I can
**also b.....n the m.....t o.....l there and can prepare
for my exams even if in the middle of the night if I feel like doing.**
