

English for children

My family and I live on the third floor in an apartment building downtown. The building is next to a park and in front of a school. there are three small bedrooms in our home there is a large living room, I really like our living room because you can see all the city from our window.

Also there are two comfortable sofas where my sister and I lie down to watch TV.

In front of the sofa we have a table with my mum's favourite flowers.

I really like our flat because there is a lot of light and it is very spacious to play with my sister.

In the evenings we like to play board games, my mum always beats us.

When we finish playing and my dad arrives, we like to have dinner together and talk about the best things that happened to each one of us during the day.
