 6 Why do people like her books?

Jane Austen is one of the most famous novelists in the English language. She was born in Hampshire, England, in 1775. She spent her early life in the village where she was born. At that time, most women got married, had children and stayed at home. Austen was different. She didn't get married – she wrote novels. But 200 years ago, women didn't write books. When *Sense and Sensibility* was printed in 1811, Austen's name wasn't on it. The cover of the book said: '*Sense and Sensibility, A Novel By a Lady*'. In fact, her name wasn't printed on any of her other six books.

Austen also wrote about 3,000 letters. In them, she talked about her daily life and the people that she met. Unfortunately, the letters were burned by her sister when Austen died. As a result, we don't know a lot about her personal life. Austen became ill in 1816 and died in 1817. She was only 41 years old.

Today people all over the world love her books. 318,000 copies of *Pride and Prejudice* were sold in 2007. This is a little strange. People don't have exciting adventures in her books. They don't find magic rings and they don't commit crimes. Her stories are about relationships. So why are her books so popular? The answer is simple. Her characters are fantastic. Some are funny; others are silly; all of them are interesting. Her women heroines are intelligent, and the stories end happily. If you get the chance, read one of her books. You will love it!
