Cloud

The cloud" refers to servers that are accessed over the Internet, and the software and databases that run on those servers. Cloud servers are located in data centers all over the world. By using cloud computing, users and companies do not have to manage physical servers themselves or run software applications on their own machines.

The cloud enables users to access the same files and applications from almost any device, because the computing and storage takes place on servers in a data center, instead of locally on the user device. This is why a user can log in to their Instagram account on a new phone after their old phone breaks and still find their old account in place, with all their photos, videos, and conversation history. It works the same way with cloud email providers like Gmail or Microsoft Office 365, and with cloud storage providers like Dropbox or Google Drive.

For businesses, switching to cloud computing removes some IT costs and overhead: for instance, they no longer need to update and maintain their own servers, as the cloud vendor they are using will do that. This especially, makes an impact for small businesses that may not have been able

Songs

"Halo"
Beyonce

Remember those walls I built?
Well, baby, they're tumblin' down
And they didn't even put up a fight
They didn't even make a sound
I found a way to let you in
But I never really had a doubt
Standin' in the light of your halo
I got my angel now

It's like I've been awakened
Every rule I had you breakin'
It's the risk that I'm takin'
I ain't never gonna shut you out

Everywhere I'm lookin' now
I'm surrounded by your embrace
Baby, I can see your halo
You know you're my savin' grace
You're everything I need and more
It's written all over your face
Baby, I can feel your halo
Pray it won't fade away

Hit me like a ray of sun
Burnin' through my darkest night
You're the only one that I want
Think I'm addicted to your light
I swore I'd never fall again
But this don't even feel like fallin'
Gravity can't begin
To pull me back to the ground again

It's like I've been awakened
Every rule I had you breakin'
The risk that I'm takin'
I'm never gonna shut you out

Everywhere I'm lookin' now
