20.A. wrapped B. organized C. collected D. picked

LIVEWORKSHEETS

21.A. firing B. burning C. fighting D. chopping

22.A. if B. so C. but D. and

VI.Read the passage, then decide if the statements that follow it are True or False

We can develop alternative sources of energy, and unless we try we'll never succeed. Instead of burning fossil fuels we should be concentrating on more economic uses of electricity, because electricity can be produced from any sources of energy.

If we didn't waste so much energy, our resources would last longer. We can save more energy by conservation than we can produce for the same money. Unless we do research on solar energy, wind power, tidal power, hydroelectric plants … our fossil fuels will **run out** and we'll all freeze or starve to death.

Many countries are spending much more time and money on research because the energy from the sun, the waves, and the winds last forever. We really won't survive unless we start working on clearer and safer sources of energy.

23. We'll never succeed in developing alternative sources of energy if we do not try.

24. Electricity can be produced from burning only fossil fuels.

25. The energy from the sun, the waves and the winds last forever.

26. We will survive if we don't start working on cleaner and safer sources of energy.

Read the passage again and choose the best answer (A, B, C, D)

27. From reading the passage, it seems that _____ .

A. our resources last forever.

B. we should research and develop alternative sources of energy.

C. fossil fuels can produce electricity.

D. our fossil will run out.

28. The word "**run out**" could best replaced by which of the following?

A. be used up B. run away C. disappear D. go away

VII. Use the correct form of the word given in each sentence

29.I'm **……** that people have spoiled this area. (disappoint)
