- 4 Marcel \_\_\_\_\_ at 7:30 this morning to exercise.

Marcel \_\_\_\_\_ at 5:30 every morning to exercise.

---

Section 3: Read the text and answer the following questions.

## The Human Body

The human body is made up of many different parts and systems that work together to keep us healthy. Our body is divided into two main parts: the head and the trunk. The head includes the brain, the eyes, the nose, and the mouth. The trunk includes the chest, the stomach, the arms, and the legs.

Inside the body, we have organs that help us digest food, breathe, and pump blood. We also have bones that give our body support and muscles that help us move. Our skin is the largest organ of the body and protects us from the outside world.

1. What is the head of the body made up of?
2. What is the largest organ in our body?
3. The skin is an organ that is inside our body. True or False?

---

**Section 4: Read the sentence and choose the right meaning for the words highlighted in bold.**
