

Notice, Caution & Warning

Kinesthetic Learners

Notice is the signs/pictures/sentences to provide information or instructions to the public. Notice is used to address practices that are not related to physical injury.

Caution is short and simple information directed at others to avoid danger or minimize risk. Caution indicates a hazardous situation that if not avoided could result in minor or moderate injury.

Warning is a sentence used to warn someone of the danger of something. Warning indicates a hazardous situation that if not avoided could result in death or serious injury.
