

Find the slopes for the following coordinates using the slope formula:

Formula:      $S = \frac{y_2 - y_1}{x_2 - x_1}$

1. (6, 3)     (-3, 2)

2. (8, 0)     (-5, 2)

3. (5, 5)     (-2, -2)

4. (10, -2)     (5, -4)
